## EXPERIENCE

**Software Developer & Co-Creator**, *Otter (otter-framework.dev)* [🔗](#) Nov 2022 – present

Otter is an open-source, cloud native framework that enables peer-to-peer video communication within web applications.

- Engineered an auto-scaling serverless infrastructure on AWS to enable WebRTC functionality within web applications (HTTP/WebSocket API Gateways, Lambda functions, ECS with Fargate, and DynamoDB).
- Wrote a CLI tool to automate the provisioning and teardown of AWS cloud infrastructure (IaC) saving developers over 100 steps.
- Developed a React frontend application for private 1-on-1 meetings hosted by Otter (CloudFront with S3 Bucket), offering low latency audio/video communication, instant messaging, and file sharing.
- Containerized and deployed CoTURN, an open-source implementation of STUN/TURN protocols, in an ECS cluster with Fargate to support Otter's P2P connectivity.
- Built a simple API for developers to integrate Otter's functionality within their web applications.
- Secured HTTP/WebSocket API Gateways by using an API key and JSON Web Tokens.
- Optimized Otter by reducing the number of reads to DynamoDB resulting in an 80% decrease in latency.
- Authored a technical case study [🔗](#) on the design decisions and engineering challenges faced while building Otter.

**Software Developer**, *Self-employed* Apr 2022 – Nov 2022

Developed open-source software, some highlighted applications include:

- ReAck: An application for collecting and inspecting HTTP webhook requests. ReAck is built with React, Node.js (Express framework), PostgreSQL, MongoDB, and Nginx.
- Rate Your Dinner: An application for rating culinary experiences. Built with Pug templating engine, Node.js and PostgreSQL.

**Actuarial Analyst - Pricing & Reserving**, Jan 2019 – Apr 2022 | Toronto

*KPMG Canada, Wawanesa Insurance, NBFC, RSM Canada*

Actuarial science relies on mathematics, statistics, and finance to quantify risk present in insurance products.

- Prepared the valuation for lines of businesses cumulating to more than \$1 billion.
- Collaborated closely with clients to achieve desired goals.
- Built data and financial models to support business requirements.
- Mentored junior team members during onboarding process.

## SKILLS

### Frontend

JavaScript, React, HTML, and CSS

### Backend

Node.js, Go, Python, PostgreSQL, MongoDB, and RESTful APIs

### AWS Cloud

Lambda, ECS, EC2, Fargate, API Gateway, CloudFront, S3, NLB, IAM, and DynamoDB

### Other

TypeScript, WebRTC, OOP, HTTP, Docker, Nginx, Git, WebSocket, Webhooks, and Tableau

## EDUCATION

**B.Sc. - Mathematics**, *Université de Montréal*

2018
